Objective: Highly motivated and skilled Data Scientist with 2 years of professional experience seeking challenging opportunities to leverage my expertise in Python, C, C++, Java, and data analysis tools like Tableau, PowerBI, Weka, and Excel. I am passionate about deriving valuable insights from data and contributing to innovative projects that drive business growth and decision-making.

Education: Bachelor of Science in Computer Science [University Name], [City, State] [Year of Graduation]

Work Experience: Data Scientist [Company Name], [City, State] [Dates of Employment]

- Developed and implemented machine learning algorithms in Python to analyze and interpret complex data sets, resulting in improved predictive models and actionable insights.
- Collaborated with cross-functional teams to identify business challenges and translate them into data-driven solutions, leading to increased operational efficiency and customer satisfaction.
- Utilized Tableau and PowerBI to create interactive visualizations and dashboards, enabling stakeholders to gain a comprehensive understanding of key performance metrics and trends.
- Conducted data preprocessing and feature engineering using Weka, enhancing the quality and relevance of the data for analysis purposes.
- Leveraged Excel for data manipulation and statistical analysis, providing valuable reports to support strategic decision-making.

Skills:

- Programming Languages: Python, C, C++, Java
- Data Analysis Tools: Tableau, PowerBI, Weka, Excel
- Machine Learning: Regression, Classification, Clustering, Natural Language Processing
- Data Cleaning and Preprocessing
- Statistical Analysis
- Data Visualization
- Problem Solving and Critical Thinking
- Strong Communication and Collaboration Skills
